BASIC AUTO SAFETY TIPS

By Senior Airman Jeffrey Rice

437th Security Forces Squadron

Never leave your keys in the car or ignition. Always lock your car, even if it's in front of your home.

Copy your tag number and your vehicle identification number (VIN) on a card and keep them with your drivers license.

Keep the keys to your home and car separate.

Keep your car in good running condition. Make sure there is enough gas to get where you are going and back.

Avoid parking in isolated areas with little foot or auto traffic. Attempt to park in well lit, staffed parking areas and be cautious of your surroundings while inside parking garages.

If you think someone is following you, drive to the nearest police or fire station, open service station, or other open business to get help.

Don't pick up hitchhikers. Don't hitchhike yourself.

If you drive at night, or alone, consider bringing a cellular phone to make it easier to summon help in an emergency.
